

## SECTION 1: PRODUCT AND COMPANY IDENTIFICATION

PRODUCT NAME: Glycogen Assay **PRODUCT CODES:** Cat. # MA-0112 **RESTRICTIONS ON USE:** For laboratory research purposes only. Not for drug or household use. AkrivisBio, Inc. MANUFACTURER: ADDRESS: 48511 Warm Springs Blvd., Suite 213, Fremont, CA 94539 **EMERGENCY PHONE:** 408-739-9315 OTHER CALLS: FAX PHONE: sds@akrivisbio.com EMAIL:

## **SECTION 2: HAZARDS IDENTIFICATION**

Components	Description	Volume	Safety Information
Hydrolysis Buffer	Proprietary buffer (contains Tergitol)	25 ml	See below
Development Buffer	Proprietary buffer (contains CHAPS & Cholic acid)	25 ml	See below
ADHP Solution	Liquid (contains DMSO)	0.2 ml	See below
Amyloglucosidase	lyophilized		No hazards
Glucose Oxidase/HRP	lyophilized		No hazards
Glycogen Standard (2.0 mg/ml)	Liquid (contains DMSO)	100 µl	See below

Tergitol:

Emergency Overview GHS Classification: Skin irritation (Category 2), H315 Skin sensitization (Sub-category 1A), H317 Short-term (acute) aquatic hazard (Category 1), H400 Long-term (chronic) aquatic hazard (Category 1), H410 GHS Label elements, including precautionary statements

Pictogram:

×	▼
Signal word:	Warning
Hazard statement(s):	H315 Causes skin irritation.
	H317 May cause an allergic skin reaction.
	H410 Very toxic to aquatic life with long lasting effects.
Precautionary statement(s):	P261 Avoid breathing dust/ fume/ gas/ mist/ vapors/ spray.
,	P264 Wash skin thoroughly after handling.
	P272 Contaminated work clothing must not be allowed out of the workplace.
	P273 Avoid release to the environment.
	P280 Wear protective gloves.
	P302 + P352 IF ON SKIN: Wash with plenty of soap and water.
	P333 + P313 If skin irritation or rash occurs: Get medical advice/ attention.
	P362 Take off contaminated clothing and wash before reuse.
	P391 Collect spillage.
	P501 Dispose of contents/ container to an approved waste disposalplant

DMSO is readily absorbed through skin and may carry such materials into the body.

## SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

Component	CAS Number	EC-No.	Molecular Weight	Chemical Formula	Concentration
Tergitol	84133-50-6	617-534-0			<0.6%
Cholic acid	81-25-4		408.57	$C_{24}H_{40}O_5$	<0.5%
CHAPS	75621-03-3		614.9	C <sub>32</sub> H <sub>58</sub> N <sub>2</sub> O <sub>7</sub> S	<1%
DMSO	67-68-5	200-664-3	78.13	C <sub>2</sub> H <sub>6</sub> OS	<99%

## SECTION 4: FIRST AID MEASURES

#### Tergitol:

**General advice:** : First Aid responders should pay attention to self-protection and use the recommended protective clothing (chemical resistant gloves, splash protection). If potential for exposure exists refer to Section 8 for specific personal protective equipment. **If inhaled**: Move person to fresh air; if effects occur, consult a physician.

In case of skin contact: Immediately flush skin with water while removing contaminated clothing and shoes. Get medical attention if symptoms occur. Wash clothing before reuse. Contaminated leather items such as shoes should be disposed of properly. Safety shower should be located in immediate work area.

In case of eye contact: Immediately flush eyes with water; remove contact lenses, if present, after the first 5 minutes, then continue flushing eyes for at least 15 minutes. Obtain medical attention without delay, preferably from an ophthalmologist. Eye wash fountain should be located in immediate work area.

If swallowed: If swallowed, seek medical attention. Do not induce vomiting unless directed to do so by medical personnel.

Notes to physician: Maintain adequate ventilation and oxygenation of the patient. Respiratory symptoms, including pulmonary edema, may be delayed. Persons receiving significant exposure should be observed 24-48 hours for signs of respiratory distress. If burn is present, treat as any thermal burn, after decontamination. No specific antidote. Treatment of exposure should be directed at the control of symptoms and the clinical condition of the patient

#### Cholic acid:

General advice: Consult a physician. Show this safety data sheet to the doctor in attendance. Move out of dangerous area.

If inhaled: If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.

In case of skin contact: Wash off with soap and plenty of water. Consult a physician.

In case of eye contact: Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.

If swallowed: Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.

## CHAPS:

If inhaled: If breathed in, move person into fresh air. If not breathing, give artificial respiration.

In case of skin contact: Wash off with soap and plenty of water.

In case of eye contact: Flush eyes with water as a precaution.

If swallowed: Never give anything by mouth to an unconscious person. Rinse mouth with water

## DMSO:

General advice: Consult a physician. Show this safety data sheet to the doctor in attendance. Move out of dangerous area.

If inhaled: If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.

In case of skin contact: Wash off with soap and plenty of water. Consult a physician.

In case of eye contact: Flush eyes with water as a precaution.

If swallowed: Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.

#### SECTION 5: FIRE-FIGHTING MEASURES

#### Tergitol:

**Suitable extinguishing media:** Water fog or fine spray. Dry chemical fire extinguishers. Carbon dioxide fire extinguishers. Foam. Alcohol resistant foams (ATC type) are preferred. General purpose synthetic foams (including AFFF) or protein foams may function, but will be less effective.

Unsuitable Extinguishing Media: Do not use direct water stream. May spread fire.

Special hazards arising from the substance or mixture: During a fire, smoke may contain the original material in addition to combustion products of varying composition which may be toxic and/or irritating. Combustion products may include and are not limited to: Carbon monoxide. Carbon dioxide.

Advice for firefighters: Wear positive-pressure self-contained breathing apparatus (SCBA) and protective firefighting clothing (includes firefighting helmet, coat, trousers, boots, and gloves). If protective equipment is not available or not used, fight fire from a protected location or safe distance.

**Further information:** Keep people away. Isolate fire and deny unnecessary entry. Burning liquids may be extinguished by dilution with water. Do not use direct water stream. May spread fire. Burning liquids may be moved by flushing with water to protect personnel and minimize property damage.

#### Cholic acid:

Suitable extinguishing media: Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide. Special hazards arising from the substance or mixture: Carbon oxides Advice for firefighters: Wear self-contained breathing apparatus for firefighting if necessary. Further information: No data available

#### CHAPS:

Suitable extinguishing media: Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide. Special protective equipment for fire fighters: Wear self-contained breathing apparatus for firefighting if necessary. Hazardous combustion products: Hazardous decomposition products formed under fire conditions— see section 10.

#### DMSO:

Suitable extinguishing media: Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide. Unsuitable extinguishing media: Do NOT use water jet. Special hazards arising from the substance or mixture: Carbon oxides, Sulphur oxides Advice for firefighters: Wear self-contained breathing apparatus for firefighting if necessary. Further information: Use water spray to cool unopened containers.

## SECTION 6: ACCIDENTAL RELEASE MEASURES

### Tergitol:

**Personal precautions, protective equipment and emergency procedures:** solate area. Keep unnecessary and unprotected personnel from entering the area. Use appropriate safety equipment. For additional information, refer to Section 8, Exposure Controls and Personal Protection. Spilled material may cause a slipping hazard. Refer to section 7, Handling, for additional precautionary measures. **Environmental precautions:** Prevent from entering into soil, ditches, sewers, waterways and/or groundwater. See Section 12, Ecological Information.

Methods and materials for containment and cleaning up: Contain spilled material if possible. Absorb with materials such as: Sand. Dirt. Collect in suitable and properly labeled containers. Do not use water for cleanup. See Section 13, Disposal Considerations, for additional information

## Cholic acid:

Personal precautions, protective equipment and emergency procedures: Use personal protective equipment. Avoid dust formation. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Avoid breathing dust.

Environmental precautions: Do not let product enter drains

Methods and materials for containment and cleaning up: Pick up and arrange disposal without creating dust. Sweep up and shovel. Keep in suitable, closed containers for disposal.

#### CHAPS:

Personal precautions: Avoid dust formation. Avoid breathing vapors, mist, or gas. Environmental precautions: Do not let product enter drains. Methods for cleaning up: Sweep up and shovel. Keep in suitable, closed containers for disposal.

### DMSO:

**Personal precautions, protective equipment and emergency procedures:** Use personal protective equipment. Avoid breathing vapours, mist or gas. Ensure adequate ventilation. Evacuate personnel to safe areas. For personal protection see section 8.

Environmental precautions Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Discharge into the environment must be avoided.

Methods and materials for containment and cleaning up: Soak up with inert absorbent material and dispose of as hazardous waste. Keep in suitable, closed containers for disposal.

#### SECTION 7: HANDLING AND STORAGE

krivis (Bib

## Tergitol:

Handling: Avoid contact with eyes, skin, and clothing. Wash thoroughly after handling. Spills of these organic materials on hot fibrous insulations may lead to lowering of the Autoignition temperatures possibly resulting in spontaneous combustion.
Storage: No specific requirements. Additional storage and handling information on this product may be obtained by calling your sales or customer service contact. The shelf life given is for unopened containers stored under moderate temperature conditions

#### Cholic acid:

**Precautions for safe handling:** Avoid contact with skin and eyes. Avoid formation of dust and aerosols. Provide appropriate exhaust ventilation at places where dust is formed.

Conditions for safe storage, including any incompatibilities: Store in cool place. Keep container tightly closed in a dry and well-ventilated place.

## CHAPS:

Precautions for safe handling: Provide appropriate exhaust ventilation at places where dust is formed. Normal measures for preventive fire protection.

Conditions for safe storage: Keep container tightly closed in a dry and well-ventilated place. Recommended storage temperature: 4 °C.

## DMSO:

**Precautions for safe handling:** Avoid contact with skin and eyes. Avoid inhalation of vapour or mist. For precautions see section 2. **Conditions for safe storage, including any incompatibilities:** Keep container tightly closed in a dry and well-ventilated place. Store in a cool, dry, well-ventilated area away from incompatible substances. Recommended storage temperature: 4°C

## SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

#### Tergitol:

## **Control parameters**

Exposure limits are listed below, if they exist.

Component		Regulation	Type of listing	Value/Notation
Poly(ethylene oxide	e)	US WEEL	TWA aerosol	10 mg/m3

**Engineering Controls:** Use engineering controls to maintain airborne level below exposure limit requirements or guidelines. If there are no applicable exposure limit requirements or guidelines, use only with adequate ventilation. Local exhaust ventilation may be necessary for some operations.

#### Personal protective equipment:

## **Respiratory Protection**

Respiratory protection should be worn when there is a potential to exceed the exposure limit requirements or guidelines. If there are no applicable exposure limit requirements or guidelines, wear respiratory protection when adverse effects, such as respiratory irritation or discomfort have been experienced, or where indicated by your risk assessment process. In misty atmospheres, use an approved particulate respirator. The following should be effective types of air-purifying respirators: Organic vapor cartridge with a particulate pre-filter.

## Hand protection

Use gloves chemically resistant to this material. Examples of preferred glove barrier materials include: Butyl rubber, Chlorinated polyethylene, Polyethylene.

## Eye protection

# Use chemical goggles.

## Skin and body protection

Use protective clothing chemically resistant to this material. Selection of specific items such as face shield, boots, apron, or full body suit will depend on the task

## Cholic acid:

#### **Control parameters**

Contains no substances with occupational exposure limit values.

#### Exposure controls

### Appropriate engineering controls

Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.

## Personal protective equipment

## **Respiratory protection**

For nuisance exposures use type P95 (US) or type P1 (EU EN 143) particle respirator. For higher level protection use type OV/AG/P99 (US) or type ABEK-P2 (EU EN 143) respirator cartridges. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

## Hand protection

Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

## Eye protection

Safety glasses with side-shields conforming to EN166 Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

# Skin and body protection

Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific workplace. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

## Hygiene measures

General industrial hygiene practice

## CHAPS:

Contains no substances with occupational exposure limit values.

#### Personal protective equipment Respiratory protection

Respiratory protection is not required. Where protection from nuisance levels of dusts are desired, use type N95 (US) or type P1 (EN 143) dust masks. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

## Hand protection

Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

## Eye protection

Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166 (EU).

#### Skin and body protection

Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific workplace. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

## Hygiene measures

General industrial hygiene practice.

## DMSO:

Components	CAS-No.	Value	Control parameters	Basis
Dimethyl sulfoxide	67-68-5	TWA	250 ppm	USA. Workplace Environmental Exposure Levels (WEEL)

## SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

Property	Tergitol	Cholic acid	CHAPS	DMSO
Appearance:	Liquid	White powder	Liquid	Clear liquid
pH:	7.2	No data available	No data available	No data available
Water Solubility:	< 0.5 %	0,175 g/l at 25 °C	No data available	No data available
Other Solubility:	No data available	No data available	No data available	DMSO
Boiling Point (°C):	> 200 °C ( > 392 °F)	No data available	No data available	No data available
Melting Point (°C):	No data available	200 - 201 °C	No data available	372.2 °F (189 °C)
Flash Point (°C):	218 °C ( 424 °F) ASTM D 93; closed cup	No data available	No data available	64.4 °F (18 °C)
Ignition Temperature (°C):	No data available	No data available	No data available	188.6 °F (87.0 °C)
Density:	1.027 at 20 °C	No data available	No data available	No data available

## SECTION 10: STABILITY AND REACTIVITY

Property	Tergitol	Cholic acid	CHAPS	DMSO
Chemical stability:	Stable under recommended storage conditions.			
Conditions to avoid:	Strong heating	No data available	No data available	flash point. Contact with incompatible materials.
Materials to avoid:	Strong acids, Strong bases, Strong oxidizing agents	Strong oxidizing agents, Strong acids and strong bases	Strong oxidizing agents	Strong oxidizing agents. Alkaline metals. Isocyanates
Hazardous decomposition products:	Carbon oxides(fire condition)	Carbon oxides (Fire condition)	No data available	None

## SECTION 11: TOXICOLOGICAL INFORMATION

Tergitol:

Acute toxicity: No data available

Skin corrosion/irritation: Mixture causes skin irritation.

Serious eye damage/eye irritation: No data available

Respiratory or skin sensitization: Mixture may cause an allergic skin reaction.

Germ cell mutagenicity: No data available

Carcinogenicity:

NTP: No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated

IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

ACGIH: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.

carcinogen by NTP. OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA. Reproductive toxicity: No data available Specific target organ toxicity - single exposure (GHS): No data available Specific target organ toxicity - repeated exposure (GHS): No data available Aspiration hazard: No data available Synergistic effects: No data available Additional information: RTECS: No data available Cholic acid: Acute toxicity: no data available Skin corrosion/irritation: no data available Serious eye damage/eye irritation: no data available Respiratory/skin sensitization: no data available Germ cell mutagenicity: Carcinogenicty: IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC. ACGIH: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH. NTP: No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP. OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA. Reproductive toxicity: no data available Teratogenicity: no data available Signs and Symptoms of Exposure: no data available Additional Information: no data available CHAPS: Acute toxicity: no data available Skin corrosion/irritation: no data available Serious eye damage/eye irritation: no data available Respiratory or skin sensitization: no data available Germ cell mutagenicity: no data available Carcinogenicity: IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC. ACGIH: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH. NTP: No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP. OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA. Reproductive toxicity: no data available Teratogenicity: no data available Specific target organ toxicity - single exposure (GHS): Inhalation - May cause respiratory irritation. Specific target organ toxicity - repeated exposure (GHS): no data available Aspiration hazard: no data available **Potential Health Effects** Inhalation: May be harmful if inhaled. May cause respiratory tract irritation. Skin: Harmful if absorbed through skin. May cause skin irritation. Eyes: May cause eye irritation. Ingestion: Harmful if swallowed. Signs and Symptoms of Exposure: To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated. Synergistic effects: no data available Additional information: RTECS: no data available DMSO: Acute toxicity: LD50 Oral - rat - 14,500 mg/kg LC50 Inhalation - rat - 4 h - 40250 ppm LD50 Dermal - rabbit - > 5,000 mg/kg Skin corrosion/irritation: no data available Serious eye damage/eye irritation: no data available Respiratory/skin sensitization: no data available Germ cell mutagenicity: Genotoxicity in vitro - mouse – lymphocyte → Cytogenetic analysis Genotoxicity in vitro - mouse – lymphocyte → Mutation in mammalian somatic cells. Genotoxicity in vivo - rat – Intraperitoneal → Cytogenetic analysis

Genotoxicity in vivo - mouse - Intraperitoneal → DNA damage

Carcinogenicty: Carcinogenicity – rat – Oral → Tumorigenic: Equivocal tumorigenic agent by RTECS criteria. Skin & Appendages: Other: Tumors.

Carcinogenicty – mouse – Oral→ Tumorigenic: Equivocal tumorigenic agent by RTECS criteria. Leukaemia Skin & Appendages: Other: Tumors.

IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

ACGIH: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.

NTP: No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

**Reproductive toxicity:** Reproductive toxicity – rat – Intraperitoneal → Effects on Fertility: Abortion.

Reproductive toxicity – rat – Intraperitoneal –> Effects on Fertility: Post-implantation mortality (e.g., dead and/or resorbed implants per total number of implants).

Reproductive toxicity – rat – Subcutaneous → Effects on Fertility: Post-implantation mortality (e.g., dead and/or resorbed implants per total number of implants). Effects on Fertility: Litter size (e.g., # fetuses per litter; measured before birth).

Reproductive toxicity –mouse – Oral – Effects on Fertility: Pre-implantation mortality (e.g., reduction in number of implants per female; total number of implants per corpora lutea). Effects on Embryo or Fetus: Fetotoxicity (except death, e.g., stunted fetus). Specific Developmental Abnormalities: Musculoskeletal system.

**Teratogenicity:** Developmental Toxicity – mouse – Intraperitoneal → Effects on Embryo or Fetus: Fetotoxicity (except death, e.g., stunted fetus). Specific Developmental Abnormalities: Musculoskeletal system.

Sign's and Symptoms of Exposure: Exposure via ingestion may cause nausea, fatigue, headache.

Additional Information: RTECS: PV6210000

## SECTION 12: ECOLOGICAL INFORMATION

## Tergitol:

Toxicity: No data available Persistence and degradability: Readily biodegradable Bioaccumulative potential: No data available Mobility in soil: No data available PBT and vPvB assessment: No data available Other adverse effects: No data available

## SECTION 13: DISPOSAL CONSIDERATIONS

## Tergitol:

Product: Waste material must be disposed of in accordance with the national and loc No mixingwith other waste.

## Cholic acid:

**Product:** Offer surplus and non-recyclable solutions to a licensed disposal company. Dissolve or mix the material with a combustible solvent and burn in a chemical incinerator equipped with an afterburner and scrubber. **Contaminated packaging:** Dispose of as unused product.

## CHAPS:

Product: Observe all federal, state, and local environmental regulations. Contaminated packaging: Dispose of as unused product.

#### DMSO:

Product: Observe all federal, state, and local environmental regulations. Contaminated packaging: Dispose of as unused product.

## **SECTION 14: TRANSPORT INFORMTAION**
